

The Discovery Centre's 15th Anniversary

Thursday 2nd February 2012
9.30am – 4.00pm

This day of celebration will begin with presentations about the knowledge around Developmental Co-ordination Disorder (DCD/Dyspraxia) and related specific learning difficulties, and how this has evolved in the past 15 years.

The wide range of afternoon workshops will provide opportunities for discussion and participation.

Guest speakers will include: Professor David Sugden (Leeds), Dr Paul Hutchins (Australia), Professor Anita Thapar (Cardiff), Dr Anna Barnett (Oxford Brookes), Professor Barry Carpenter OBE, Angela Webb (National Handwriting Association) and Dr Ian Smythe.

Other eminent speakers will be joining us on the day.

Topics will cover neuroscience, DCD consensus statement implementation, key changes in DCD, problem-solving approaches, practical support strategies for children and adults, supporting adults with DCD/Spld into employment, use of IT, transition and much more.

Fee for the day: £30 per person (non-refundable) including a light lunch and refreshments.
